The purpose of this communication is to inform you that the June 15, 2006 Notice of Abandonment in the above-identified application is being withdrawn.

A review of Patent and Trademarks Office application files and database records reveals that the original application file was flagged as being lost by the Office on October 17, 2005 after an exhaustive search failed to reveal its whereabouts. A reconstruction notice under 37 CFR 1.251 was mailed to applicant on the same day.

Unbeknownst to the examiner in charge of the application, Applicants did timely file a response to the reconstruction notice with the Office. After the completion of the statutory period for response to the reconstruction notice and unaware of the timely response, the examiner prepared an unsigned Notice of Abandonment for the instant application. Regretfully, the unsigned and unapproved Notice of Abandonment was processed and mailed to Applicants.

In view of these facts, the holding of abandonment in this application was in error. The notice of abandonment is being withdrawn to permit reopening of prosecution and final allowance processing of this application.

The application is being forwarded to the Office of Publication for issuance.
